

AN INVITATION

TO: All Healthcare Support Workers
FROM: Becky Davies, Infection Prevention and Control Nurse
DATE: 9th August 2019

RE: Infection Prevention & Control Conference and Product Exhibition for Healthcare Support Workers

“INFECTION PREVENTION AND CONTROL – ROAD TO SUCCESS”

To ensure that healthcare support workers have an opportunity to update in specific areas of current interest in infection prevention and control (IPC), you and/or your colleagues are invited to attend a study day that has been planned for Wednesday 9th October 2019. There is no charge for the day but commitment must be given to attend after booking. The venue will be the Charles Hastings Education Centre, (Worcestershire Royal Hospital Site); it is anticipated that there will be a variety of medical suppliers attending. Please note that attendance of the whole day will equate to a mandatory update in IPC (linked to the Health and Social Care Act 2008 (DH 2015)).

During the morning sessions topics to be covered will include: the importance of oral hygiene; ways to minimise urinary tract infection including best practice linked to catheter management; importance of hydration; reflections on 2019, decontamination and cleaning, audit and monitoring and guidance on the use of antibiotics. During the afternoon sessions, we will consider practical tips to enhance IPC to ensure consistent provision of clean, safe care, which if implemented consistently will minimise the risk of infection.

Applications for places on the course MUST be made on the reply slip below (not solely on ESR) for Trust staff and confirmation of a place will be sent out prior to the event. Application forms should be returned no later than Tuesday 24th September 2019. If you require any further information on this study day or want to enquire about other planned training please contact one of the IPC Nurses on 01386 502552.

Please note this invitation may be photocopied.
